

YELLOW NECTARINE
NECTATINTO cov NECTAPOM® ASF0620

Very interesting variety for this time with a very strong agronomic potential and very attractive

HABIT: semi-upright
PRODUCTIVITY: regular

TIME: similar to BIGTOP®
FLOWER TYPE: showy
FLOWER INTENSITY: high

HARVEST: 37 week
SIZE: 2A homogenous
COLOR: 90% dark red
FLAVOR: semi sweet, good aroma

To have a better coloration, don't forget to make a summer pruning 3 weeks before the harvest.

This variety is a reference in this late season.
